1. INTRODUCTION

This test plan document describes the objectives, scope and focus of the testing of nopCommerce (<https://demo.nopcommerce.com/>) website. It's a demo e-commerce store that allows users to browse products, add items to cart, register/login, and place orders. The purpose of this test plan is to verify the functionality, usability, and reliability of the nopCommerce website. The testing will ensure that major features such as login, product search, shopping cart, and checkout work correctly.

2. TEST OBJECTIVES

- Verify all major features work correctly
- Identify functional defects
- Validate user input fields
- Ensure proper navigation between pages
- Check positive and negative scenarios

3. SCOPE OF TESTING

Features to be Tested:

- User Registration
- User Login
- Product Search
- Product Details Page
- Add to Cart
- Shopping Cart
- Wishlist
- Checkout Process
- Logout

Features Not be Tested:

- Payment Gateway Real Transactions
- Third-Party Integrations
- Newsletter Module
- Contact and Information Module

4. TEST APPROACH

The approach focuses on validating the core functionalities of the application from an end-user perspective.

- **Type of Testing:** Functional testing
- **Testing Method:** Manual Testing
- **Testing Technique:** Black Box Testing
- **Test Design:** Based on requirements and user scenarios
- **Test Coverage:** Positive and negative test cases
- **Test Execution:** Module wise testing (Login, Cart, Checkout, etc.)
- **Validation:** Input validation and UI behavior checking
- **Defect Handling:** Defects will be identified, documented, and retested

5. TYPES OF TESTING

Types of Testing to be Performed

- Manual Testing
- Black Box Testing
- System Testing
- Smoke Testing (basic feature verification)
- Usability Testing (basic UI/navigation checking)

Types of Testing not be Performed

- Automation Testing
- White Box Testing
- Performance Testing (Load/Stress Testing)
- Security Testing
- Database Testing
- API Testing

6. TEST ENVIRONMENT

Application: nopCommerce Demo Store

URL: <https://demo.nopcommerce.com/>

Browser: Microsoft Edge

OS: Windows

7. ENTRY CRITERIA

- Website is accessible
- Required browsers are available
- Test cases are prepared
- Test data is ready

8. EXIT CRITERIA

- All planned test cases are executed
- No critical and major defects
- Test report is prepared

9. RISKS AND MITIGATION PLAN

Risks:

- Demo site data resets periodically
- Site may be slow or temporarily unavailable
- Demo limitations: Some features may not work fully
- Demo environment: Limited control over backend

Mitigation Plan:

- Repeat failed tests to confirm defects
- Execute tests during stable internet connection
- Document all issues clearly
- Focus only on frontend functionality

10. DELIVERABLES

- Test Plan Document
- Test Case Document
- Bug Report
- Test Summary Report

11. CONCLUSION

This test plan ensures systematic testing of the nopCommerce demo website. It helps to identify defects and ensures the application works as expected for end users.
